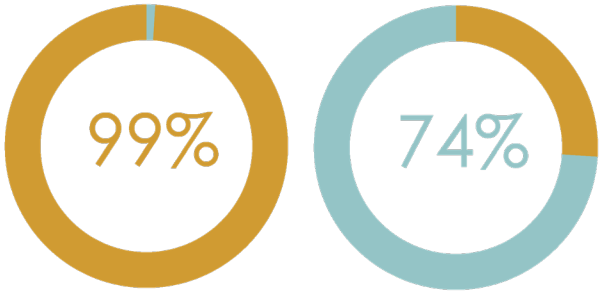
The Plasters of PARIS

CONSUMING LARGE QUANTITIES OF THE BIBLE

Three out of ten French households own a Bible.

France has a 99% literacy rate.



74% have never opened a Bible.

#2 CONVERSION FACTOR

The second factor influencing people to choose a personal relationship with God is that they read the Bible on their own.

If a disciple is not seeing the quality of growth they desire then they are not in contact with a sufficient quantity of the word of God.
